Provide all labor, materials, expertise, equipment, transportation, and facilities to clean 5,600 linear feet of existing sanitary sewer and 23 sanitary manholes and the repair of sanitary sewer problems in the four (4) areas as shown on attached plan. The sanitary sewer lines and manholes will be cleaned by hydraulic flushing with the flushed material removed by vacuuming from the sanitary manhole structures. When needed, mechanical cleaning of heavy materials will be permitted. The removed material will be disposed of off site and by the contractor as part of this contract, in accordance with the attached specifications and drawings.
